

DOCKET NO.: PUJ-0318 (PCH 0915USNP)
Application No.: 10/816,672
Office Action Dated: September 11, 2007

PATENT

REMARKS

Claims 1-13 are pending in the application and are subject to a restriction requirement. The office action requests election of a species, an active ingredient, in claim 1.

Applicants elect bupropione. Election is made with the understanding that it will assist the Examiner with the initial search, and that the search will be broadened to include the full generic scope of Applicants' elected claims when allowable subject matter is found. To the extent that the restriction requirement is an indication that the species are independent inventions, Applicants traverse the requirement because the species are linked by generic claims.

The foregoing is a bona fide attempt to fully respond to the office action. The claims are in condition for examination on the merits, which action is requested.

Date: October 9, 2007

Respectfully Submitted,

/Brian A. Cocca/
